SUMMARY

As a B.Tech student specializing in AI/ML, I bring a strong foundation in computer science and a passion for cutting-edge technologies. Eager to apply my skills and knowledge to real-world challenges, I am committed to continuous learning and contributing to innovative projects in the field.

EXPERIENCE

Research Intern at SRM University AP   2023

Worked on a predictive model for forecasting Air Quality Index (AQI) using machine learning techniques.

Salesforce Developer Virtual Intern at Salesforce   2022

- Developed Salesforce applications using Visualforce and Lightning Web Components.
- Utilized Apex programming, integrated APIs, and managed source control.
- Gained a comprehensive understanding of Salesforce architecture and products.

PROJECTS

Air Quality Index Prediction   2023

Developed a predictive model for forecasting Air Quality Index (AQI) using machine learning techniques.

Space Shooter Game Development   2022

Developed a space shooter game using Python and Pygame. Implemented player controls, enemy AI, scoring system, and graphical enhancements.

Finlatics Machine Learning Project   2024

Analyzed datasets from Banking, Digital Marketing, and Media & Technology sectors using Python. Delivered insights through PDF code transcripts and presentations.
